

U_FLOE COLLECTION

SEAT AND BACKREST

Made based on a wooden load-bearing structure wrapped in foam and upholstered with a textile or leather. The seat and the back support may have upholstery in different colors, made of textiles from the same collection.

CONSTRUCTION

- Two types are available:
- made of metal bars, powder-coated or chrome-plated
- made of solid wood, in colors from the Bejot palette

ARMRESTS

Upholstered with a textile or leather. Possibility to install a HPL top, white or black, and a media port. Possibility to upholster the top of the elbow rest with a different color material within the same textile/leather collection or with a combination of a textile and leather.

CONNECTING TOPS

Tops made of HPL, black or white, with black core, enable placing elements of the set at 45°, 90°, or 180° angle. The straight UF TB 180 top has special cuts that enable inserting tables and U_Floe step over flower beds into the set.
