EDOC

Design meets Art.

The Art of knowing, the Art of Wood, a matter of noble and human qualities.

Qualities that make each environment unique, modelled in the hands of skilled craftsmen as only Artom can,
in traditions handed down through time, with new technologies to guarantee the very finest workmanship as always in our creations.

At Artom we realize EDOC, a result of our culture of past and present,
and as such is immune to the variations of time and trend.
