

July, 2017

To : Style Object Company, Moscow

We would like to express our sincere appreciation to your company and its representative.

It's been our main project of the Embassy to refurbish our diplomats and local staff's offices.

It could not been accomplished without the close guidance and the help of your company. We received your full intention and professional help in order to create a better workspace environment.

We feel the need to specify especially your wonderful project managers that helped us in every step of the way.

Ms. Oksana Allamova, Ms. Tatianna Korobkova, MS. Janna Stroganova and Ms. Dina Kazakova spent their time with us so they can understand our needs better, they came several times to the location, to measure the offices, and they advised us what will be the best solutions for us and provide us sketches and plans for the rooms. Naturally that kind of project required them to make a lot of changes and amendments from their ends and still they made them with the outmost patience and understanding.

As for the products, we are very satisfied with the furniture from "LAS" and "SINETICA" which manufacture in Italy, it is so comfortable, beautiful and reliable.

Please forward our appreciation to the following technical crew members that been involved in the project: **Evgeny Shushpanikov, Andrey Bivalentsev, Evgeny Chernishov, Sergey Misheyev, Chermen Savlohov, Aleksey Moiseev, Nikolay Konovalov, Maxim Meshkov.** All of them did their job with high level of performance and kind attitude.

We would be very happy to cooperate with you again in future projects.

Sincerely,
Guy Einav, Head of administration
Tehila Rubin, Administration assistant
